## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments, see terminal disclaimer and amendment, filed on October 26, 2009, with respect to non-final rejection of 06/24/2009 have been fully considered and are persuasive. The rejection of 06/24/2009 has been withdrawn.

### ***Reasons for Allowance***

1. Claims 1-12 are allowed.

#### **2. Examiner's Statement of Reasons for Allowance:**

Applicant(s) invention relates to an improvement to an engine-driven generator formed by supporting on a frame an engine and a generator driven by the engine.

The structure and the assembly has a frame formed by integrally connecting via a cross member lower side sections of a pair of left and right side frames each formed by bending a steel pipe into a U-shape and supporting an engine and a generator, as disclosed.

There are inventions in the field that provide similar functionality and/or have similar features, as prior art of record shows. Applicant(s) invention differs from the prior art of record by the combination of its functional limitations, which were interpreted in view of the disclosure, which are providing functionality to the engine-driven generator as disclosed and claimed, and which examiner's search failed to find.

It appears that present invention is an improvement over applicant(s)' earlier inventions of the record.

Art Unit: 2839

3. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
